ALTRU EXPANSION

DOUG BARRETT (/ON-AIR/DOUG-BARRETT) | FEB 6, 2018 AT 10:39 AM

When construction begins on a new Grand Forks hospital it will be on the same campus as the current facility. Altru Officials announced today that the new complex will be located along its Columbia Road corridor – north of the current hospital building. Altru’s Board of Directors approved the campus location - the specific site is still up to a steering committee...consultants...and architects.

The current campus location was selected because of its proximity to complementary services...ease of access for patients and visitors...adequacy of land...and fewer disruptions to on-going operations during construction.

It was in November that the health care system announced it was moving ahead with the 250-million dollar hospital project.
