

Miralax, Galotorade and Dulcolax - Morning Procedure

You are scheduled for a colonoscopy, a procedure in which a doctor examines the lining intestine by looking through a flexible tube called a colonoscope. If growths or other abnormalities are found during the procedure, the doctor may remove the abnormal tissue for closer examination or biopsy. To properly prepare for the colonoscopy, follow these instructions. A nurse from Altru's Ambulatory Procedure Center will call you a few days prior to the procedure to review the preparation process and answer any questions you have.

Please remember to arrange for a responsible adult to accompany you home. If you do not have an adult escort, your procedure will be cancelled and rescheduled. Review the preparation schedule below for the days preceding your colonoscopy. If you have any questions about this process, please call (701) 780-6394.

one week prior	three days prior	two days prior	one day prior	procedure day
<p>✓ Purchase:</p> <p>No red or purple liquids</p> <ol style="list-style-type: none"> 1. Miralax 238 gram bottle (over the counter). 2. Four Bisacodyl (Dulcolax laxative) tablets (over the counter).
