- » Center for Innovation Foundation Board (ex-officio)
- » Ralph Engelstad Arena Board (UND Arena Service, Inc.)

Why I advocate for Altru...

When the opportunity to serve as a community director arose three years ago, I was excited to accept. As an advocate and representative of the UND community, I welcomed the opportunity to work directly with Altru Health System. The university and Altru have collaborated successfully in many ways over the years, recognizing the importance of contributing to the strength and vitality of our community, state and region. I believe that the quality of life in any community is significantly impacted by availability and access to quality health care. Grand Forks and the surrounding area are very fortunate to have Altru Health System as our primary health care provider. The quality of care is outstanding.

Maintaining the highest levels of care, responding to emerging needs in the community and providing leadership/partnership in wellness and prevention throughout the region requires strong leadership, outstanding employees and community engagement. Altru is pro-active in all of these areas and I am proud to serve as a community director.
