

Free Kid's Vitamin Program

In today's super-charged world of fast food and busy schedules, it can be tough to keep kids eating a healthy, balanced diet. Multi-vitamins can supplement the nutrients a child needs to ensure they're getting what their growing bodies need to reduce the risk of certain deficiencies.

Parents, sign your children up today for the free kid's vitamin program. All that is required is for the parent to enroll their child for a 30-day supply of chewable vitamins. Parents can pick up a new bottle every 30 days.

Ask us for details at one of these convenient locations:
